

EXCITING VETERINARY OPPORTUNITY AT THE VERVET MONKEY FOUNDATION!

The Vervet Monkey Foundation is looking for a licensed and certified veterinarian (with primate experience) to assist us with our vasectomy season this year! Every year, the VMF vasectomises our 3 year old male vervet monkeys as part of our non-breeding protocol. With the assistance of our meds team and our onsite surgery facilities, you will be helping us with approximately 20 vasectomies, as well as performing fecal analysis for on-site parasite detection, and conducting necropsies on our deceased monkeys. The VMF will provide all medical instruments, equipment and drugs for these procedures.

We recommend that you stay onsite for a minimum of 2 weeks but longer stays are certainly encouraged, ideally you'd be able to come out anytime between July and October of this year. The VMF will cover transportation fees from Johannesburg to Tzaneen upon arrival. During your stay, you will be provided with private accommodation (with electricity), delicious vegan meals, wifi in communal areas and free laundry services.

This incredible opportunity will also give you the chance to learn more about South Africa, our local flora and fauna, and our fantastic vervet monkeys. Please contact josie@vervet.za.org for more information about how you can help the VMF!
